employee savings

Gym Discounts provides an average saving of 15% off the monthly membership fee.

management usage information

If it's important for you to know how well the scheme is doing, then you need to set up a customised site for your employees. You will then be able to see the usage and ensure that your employees are making full use of the service.

promoting the service

To help you to get the most out of the service we can provide you with marketing to support your internal promotion of the service to employees, helping to drive engagement.

how does it work

- ✓ Gym discounts is an employee self-paid gym membership scheme
- ✓ Employees pay their preferred fitness centre directly and receive savings off the membership fee
- ✓ Discounts are available on a variety of contracts, ensuring employees don't necessarily need to commit to a 12-month agreement
- ✓ Employees download a voucher from our partner's website and exchange for a discount at their fitness centre
- ✓ Employees can also access a variety of additional benefits that enable them to make further savings on days out, activity holidays, fitness devices, golfing greens and more
- ✓ The cost to you is an annual fee per head.
- ✓ Your portal can be customised with your company details for a small cost or set up as Bravo Benefits
